The Christmas Store

HANDKERCHIEFS For Christmas Gifts

This department is exceptionally ready to meet the requirements of the holidays. No matter how little or how much you have to spend you will find dainties here to delight the recipient. Handkerchiefs with embroidered initials have a personal thought about them that makes them welcome gifts. Those exquisite real lace French Handkerchiefs must be seen to be fully appreciated—all the daintiest laces represented.

Ladies' and Children's Handkerchiefs

You would scarcely believe that we can offer such values for the holidays unless you see them for yourselves. An assortment larger than ever shown before.

- At 65c a doz. a good fancy border cambric handkerchief.
- At 90c. a doz. fine hemstitched, neat patterns, fancy borders.
- At 25c a box, children's fancy border, with embroidered initials.
- At 35c a box, children's fine cambric, hemstitched, white with colored embroidered initials.
- At 15c, or \$1.50 a dozen, Ladies' pure linen, hemstitched, hand embroidered initials (convent made).
- At \$1.75 a box, half doz., fine pure linen hemstitched, hand embroidered initials.
- At 15c each, very pretty one, hemstitched, embroidered border or scalloped edge.
- At 20c., better linen, hemstitched and embroidered, new designs.
- At 25, 30, 35 and 45, handsome fine pure linen, hemstitched, embroidered or lace edge.
- At \$1.75 for half doz., in fancy boxes, all pure linen, exquisitely embroidered, surprising value.

Handkerchiefs For Men

- \$1.00 dozen, fine white hemstitched cambric.
- \$2.75 dozen, pure linen hemstitched.
- \$2.00 for half doz., in a box, fine quality pure linen, with initials.

AN ORGAN DECIDED ON

BOARD OF AGRICULTURE
AND THE PLANTER'S MONTHLY

FORESTER HOSMER ACCEPTS
TERRITORIAL POSITION FUM-
IGATION TENT TO BE
TRIED—AVENUE TREES.

Superintendent of Public Works Holloway read a letter from Chief Pinchot of the Bureau of Forestry, Washington, at yesterday afternoon's meeting of the Board of Agriculture and Forestry, to the effect that H. S. Hosmer had accepted the position of Forester of this Territory. The Board was asked to defray Hosmer's expenses from Washington here, referring to Forester Hall's report on Hawaiian forest conditions. Mr. Pinchot said it should be published either by the Bureau or the Board.

The Board decided to pay Hosmer's traveling expenses. President Thurston said he had written Pinchot, expressing the desire that the Bureau at Washington print Hall's report. It was voted that Hosmer be permitted to retain his civil service status. It will take Hosmer till the end of the year to complete work in hand at Washington.

W. M. Giffard reported interviewing the editor of the Planter's Monthly, who was willing to allow the Board ten pages, subject to the approval of the Planter's Association trustees. There would be no charge. Giffard suggested a separate edition of the Board's portion of the Monthly as the regular edition would go chiefly to sugar men. He also suggested sending out extra copies for securing subscribers. He would bring up the matter at to-day's planter's meeting. Thurston advised that Giffard take the editorship.

Answering J. D. Dole's question, Giffard said the Board's portion of the monthly would be largely composed of selections from tropical agricultural journals; much material was already gathered.

The question of a name was left open, Thurston suggesting "The Hawaiian Agriculturist."

Holloway submitted A. F. Cooke's application, for Palolo Land Co., for 800 trees. This was of the nature of the request of McBryde Sugar Co., said Thurston, which was refused. The company had since offered to exchange 300 kukui for as many eucalyptus, he said. It was the general opinion that some material should be reserved for the disposal of Forester Hosmer; that the condition of the nursery should be considered; that cost should not be forgotten. Dole said they had 20,000 trees which cost five cents each. A. W. Carter thought they should cost no more than two or three cents.

The appointment of forest rangers will be deferred until the arrival of Forester Hosmer. It was voted that Forester David Haugha be instructed to assist all who wanted trees to start nurseries, until Hosmer arrived.

Superintendent Holloway asked advice as to planting trees along the Waikiki road. Giffard favored the grevillea and disliked the poinciana regia. Thurston favored the latter and cared little for the former. Holloway said he would like to see a little park in the middle of the road. No action was taken.

Entomologist Perkins submitted estimates for a tent, for the fumigation of trees, 25 feet high. Thurston had heard that fumigation killed antidotal bugs as well as pests. Perkins admitted it and said Professor Koebele was against fumigation for that reason. Koebele believed in natural enemies; in Washington they believed in artificial remedies. It was decided to procure one tent, to be constructed here.

President Thurston named the following standing committees:

DROPSY

Do Your Ankles or Limbs Swell?
Are Your Eyes Puffy? We are
the Sole Agents for the Only
Thing Known That Cures the
Kidney Diseases That Cause
Dropsey, viz., FULTON COMPOUNDS.

It is now well known that dropsy is not in itself a disease, but is nearly always a symptom of kidney disease that accompanies the chronic stages heretofore incurable. Hence, up to the discovery of the Fulton Compounds, dropsy was incurable. It is now, however, curable in nearly nine tenths of all cases. Here is an interesting recovery, to which we refer by permission.

Mrs. Peter Goyhenis of 908 Fillmore street, San Francisco, became alarmingly dropsical. Her physician had finally to tap her every few days. She was tapped nearly forty times and grew worse from day to day. The physician finally told her husband that she had Bright's Disease of the Kidneys, that it was an advanced chronic state and beyond medical aid. Her husband also gave her the usual trouble and she was in such a serious condition the relatives were despondent. They called on Fulton's Compound, it stayed on the stomach, the first thing that had done so for a week. The second improvement was then gradual until her recovery was complete. This case was examined into by representatives of the San Francisco Star and the Overland Monthly, and the genuineness of the case and the recovery were fully attested in their columns.

Mrs. Thomas Christol of 405 Twenty-seventh street, San Francisco, was also swollen with dropsy, as the result of chronic kidney disease. She lost more than seventy-five pounds beyond her normal weight, and had to be moved in sheets and was close to death a short while ago. She had four physicians. Three weeks showed improvement and in six months she was well, and permits this reference.

If you have dropsy don't temporize. There is only one thing known that will cure the chronic kidney disease that is behind it and that is Fulton's Compound. The Royal Compound for Bright's and Kidney Diseases, \$1. For details, \$1.50. John J. Fulton Co., 49 Washington street, San Francisco, sole compounders. Send for pamphlet. We are the sole agents for this city.

Honolulu Drug Co., Fort St.

Don't You Think It Worth a Postal To Get Well.

When you write that postal, I will gladly send my help.

I will mail you an order—good at any drug store—for six bottles Dr. Stimp's Restorative. You may take it a month on trial. If it succeeds, the cost is \$5.50. If it fails, I will pay the freight myself—and your mere word shall decide it.

I do that for every sick one who writes me, and I have for twelve years. I have found that the sick are honest, and I have proved that I can cure nearly all.

Only one patient in each forty decides that the test has failed. The others pay gladly—pay because they are cured.

There are 39 chances in 40 that I can cure you and I alone am the loser if I can't. Let me try. I have spent a lifetime in learning how to strengthen weak inside nerves. My Restorative brings back that power which alone operates the vital organs. I treat a weak organ as I would a weak engine, by giving it the power to act. My way always succeeds, save when a cause like cancer makes a cure impossible. And most of these chronic diseases cannot be cured without it.

You'll know this when you read my book.

Send me state which book you want, and address Dr. Stimp, Box 111, Racine, Wis. Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

Forest and Nursery—J. A. Thurston, A. W. Carter and W. M. Giffard.
Entomology—W. M. Giffard and J. P. Brown.
Finance—C. S. Holloway and W. M. Giffard.
Rules and Regulations—A. W. Carter and L. A. Thurston.
Agriculture—James D. Dole and J. P. Brown.

WIGHT STATES POSITION

With regard to the subsidy for steamship service to Molokai the following letter from Pres. C. L. Wight of the Wilder S. S. Co. was read at the Health Board meeting yesterday:

"Honolulu, T. H., Dec. 16, 1902.
"Dr. Charles B. Cooper, President of the Board of Health, Honolulu.

"Dear Sir: In reply to your favor of December 15 in which you ask if the subsidy now paid for weekly passenger service to various ports on the island of Molokai, Lanai and Maui could not be dispensed with, through the fact that retrenchment is necessary in the expenditures of the Board of Health.

"We would say that this subsidy is paid to insure communication between Honolulu and ports which would otherwise be absolutely cut off from the rest of the world. The business offered by the windward ports on the island of Molokai and the island of Lanai is so small that the gross returns would not pay for the coal alone consumed in the service between them, and the necessity for this service is evidenced by the fact that the Legislature has made a regular appropriation for this purpose for a long term of years.

"In submitting tenders for service to the Leper Settlement we based our rates on the fact that this subsidy would be paid, and in submitting tenders for mail contracts this matter also was taken into consideration. Further, while this subsidy does not apply directly in all cases to the transportation of leper suspects to Honolulu, we have given this matter considerable weight when making a charge of the latter service.

"We would also state that we have ordered a new steamer to run on the route covered by this subsidy, presuming that after the Legislature had made a provision for this service there would be no doubt as to the availability of the funds.

"For the foregoing reason, and having acted in good faith presuming that this subsidy would be continued, we have taken steps to provide a first-class service under its terms, and should the same be discontinued we should suffer a very heavy financial loss. We accordingly request that the same be not withdrawn.

"Very truly yours,
"WILDER'S STEAMSHIP CO.,
"C. L. Wight, President."

VESSLS FOR SUGAR.

The Chronicle of December 9 says: Welton & Co. of this city have chartered two more ships to carry cargoes of the new season's crop of sugar from Honolulu to New York. The William P. Frye and the Susquehanna, two of the best and largest sailing vessels here, are under engagement to the firm, and with the ships already chartered and to be chartered, the fleet to run in opposition to the big steamers of the American-Hawaiian Company will be extensive. The Susquehanna has been lying up in this harbor since September 17th, and the Frye has been here since August 20th. Each vessel will be able to carry about 5000 tons of sugar.

Delay in the Treatment of bronchitis, which generally begins with a chill, not feverish attacks and a feeling of exhaustion, develops into very serious complication. PAIN-KILLER taken in hot water, as well as rubbing the chest with it clear, will speedily cure. Avoid substitutes, there is but one Pain-Killer, Perry Davis' Pain-Exorciser and 20c.

Electricity In the Home AND WHY YOU SHOULD USE IT.

Incandescent electric lighting is indispensable to the comfort of the modern home.

The quality of the light is far superior to any other.

The cost is very slightly above kerosene.

The annoyances of broken kerosene lamps, smoke, trimming of wicks, excessive heat, disarrangement, refilling of lamps, etc., are entirely removed by the use of electricity.

A simple turn of the switch in the wall or chandelier gives instant light and saves groping about for matches.

The light can be left burning at night, without danger of fire while occupants are out of the house.

The quality of light is soft, steady and white—the quantity to suit your needs.

We have numerous devices for saving light and valuable suggestions for old, as well as new subscribers.

The conveniences and desirable features of electricity over all other illuminators are innumerable and we will take pleasure in telling you the cost of house wiring and fixtures.
